

Russian Jeweled Egg Art Activity

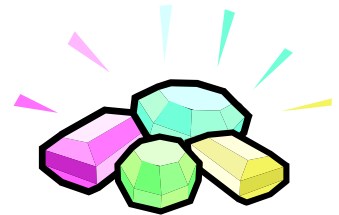

Items Needed:

Raw Egg
A Large Needle
Bowl
Paper Towels
Scissors
Glue

Carl Faberge' and his artists made the first Faberge' Egg in 1885 for Csar Alexander III of Russia as an Easter surprise for his wife. She was so delighted with the beautiful jeweled egg that each Easter the Csar had a new one made for her!

Decorations for Egg- Glitter, Sequins, Beads, Rickrack, Glue On Faux Jewels, Broken Costume Jewelry - Anything! Be creative!
Small Piece of Clay

Instructions:

- 1- Carefully pierce a hole in the top and bottom of the egg with the needle. Move the needle around in the bottom hole to make the opening a little bigger than the top needle hole.
- 2- Hold the egg over the bowl and blow the insides out into the bowl. Shake the egg or poke the insides with the needle to break up the yolk if having trouble getting the insides out.
- 3- Rinse the egg well under running water making sure to rinse the inside of the egg as well. Dry well on the paper towels.
- 4- Make a small ring out of the clay to display the egg on.
- 5- When the egg is completely dry glue the jewels and decorations on for a beautiful jeweled egg to display!
